Connect Now for these Great Benefits:

- Unlimited contact to the world
- Information and communication
- E-commerce
- Job opportunities
- E-mail
- Research
- Education
- Distance Learning

Expand your business. Get your own website. Keep in touch with friends and family. Earn an online degree. Stay informed of world events. The possibilities are endless!

Presenting Nigeria’s first wireless internet service provider!

Fantsuam Foundation - ZittNet
No. 1 Fantsuam Close, P.O. Box 58
Bayanloco, Kafanchan, Nigeria
Telephone: 80 257 454 74
What is ZittNet?

ZittNet is Nigeria’s first wireless internet service provider. Run by the Fantsuam Foundation, ZittNet serves as a link between the Kafanchan community and the world wide web.

We are proud to offer this service to help local businesses participate in the global economy, and bring the benefits of the information age to Kafanchan.

Web Design

We also offer web design and web hosting services to give your business or organization a professionally made and maintained website on the world wide web.

How much does it cost?

The necessary equipment and labor for a basic installation costs N 47,100. Fantsuam allows you the option of buying the equipment at the time of installation, making small payments over a period of time, or renting the equipment from Fantsuam.

With ZittNet’s “pay-as-you-go” billing system, you only pay for the time you use!

Who can be connected?

Anyone with a computer capable of internet browsing who is located within range of our radio tower can use ZittNet. Not sure if you are in range? Our installation staff will be happy to conduct a FREE site survey to determine if you can be connected.
